

Exceptional Glass Designs,  
Accessible to All

**estal.** PREFERRED PARTNER

The world is at a critical turning point, and consumers are moving away from wasteful packaging – with good reason – Calaso champions sustainable packaging for your brand’s identity and the planet’s future. Our mission is to make glass packaging work for brands by elevating their packaging and making it easy and accessible. We strive to create a future where every piece of packaging is a work of art, harmonising the planet’s needs and business aspirations.

Creating a  
Beautifully  
Sustainable Legacy

# Global Glass Packaging Partner

Calaso is committed to making your brand's vision a reality. With our expertise in design and product technology, we merge the artistry of glass craftsmanship with sustainability principles to create packaging that embodies your brand’s aspiration.

We cater to businesses of all sizes, offering various responsible glass packaging solutions. Whether you’re in the premium cosmetics, personal health, or food industry, our catalogue presents a plethora of high-quality glass bottles and jars. We have thoughtfully incorporated recycled materials, using the latest CO2-neutral production and shipping methods. Yet, we only see our sustainability efforts as the beginning of the journey and are determined to develop continuously as we grow.

Calaso works closely with you as partners to achieve results that reflect your brand—leveraging our marketing and engineering to understand your product and target audience thoroughly. Together, we address every aspect, from aesthetics and tactile experience to refillability and recycling.

Calaso’s total packaging concept means you can effortlessly find the right packaging, including the glass, closures, and any extras you may need. We also offer various decoration techniques to ensure that the glass packaging of choice aligns perfectly with your brand and the product inside.

When it comes to small orders, or if you need something special, don’t worry. At Calaso, we understand that even the most renowned businesses started small. By upholding well-stocked inventory and setting up strategic partnerships with specialised manufacturers, we can cater to diverse packaging needs, ensuring fast and reliable deliveries worldwide – no matter the industry you are in or the volumes you require.

Our exceptional customer service, logistical expertise, and technical know-how reflect our commitment to our customers. Additionally, we prioritise responsible glass production and design, use renewable energy sources, and promote recycled glass use.

# BUBBLES BANDEAU

The Bubbles Bandeau series offers exceptional versatility for fragrances. Each bottle is crafted from extra flint glass, and its various neck finishes make it possible to create a complete fragrance set, from home diffusers to luxury perfumes. Thanks to its innovative push-up technology, adapted from wine to fragrance, Bubbles bottles are 35% lighter than standard perfume bottles of the same capacity, combining elegance with sustainability. Available in 100 ml with FEA15, Mikado, or SN115 neck finishes.

# BUBBLES CLOCHE

The Bubbles Cloche series stands out with its refined design, catering to both home fragrance and luxury perfume markets. Crafted from extra flint glass, its elegant profile is available with various neck finishes, making it ideal for creating coordinated fragrance collections. Featuring innovative push-up technology adapted from wine bottles, the Cloche is 35% lighter than standard perfume bottles of the same capacity. This combination of lightweight sustainability and striking aesthetics ensures it's a premium choice.
